Immunization requirements are in place to protect the health and safety of our community, including our employees, students, and vulnerable patient population. Residential students, students accessing SBU facilities in-person, and covered “personnel” as defined by regulation of the Department of Health<sup>1</sup> must be fully vaccinated, subject to limited exemptions.

**Clinician Section**

***(This section must be completed and signed by a licensed Physician, Physician’s Assistant or Nurse Practitioner.)***

Please select which of the COVID-19 vaccine contraindications identified by the CDC apply:

- Severe allergic reaction (anaphylaxis) after a previous dose or to a component of the COVID-19 vaccine, including polyethylene glycol (PEG). ***(Provide detailed description of reaction/response below and contraindication to alternative vaccines. Provide details on nature and duration of exemption and criteria for reassessment.)***
- Immediate allergic reaction to previous dose or known (diagnosed) allergy to a component of the vaccine. ***(Provide detailed description of reaction/response below and contraindication to alternative vaccines. Provide details on nature and duration of exemption and criteria for reassessment)***
- Receipt of monoclonal antibodies within the past ninety days.

**\*Please attach additional supporting documentation from related medical visits, test results etc. Providing full documentation at time of submission will facilitate a quicker review and determination of exemption request.**

Please note that ***none of the following*** are considered contraindications to the COVID-19 vaccine.

- Local injection site reactions to previous COVID-19 vaccines (erythema, induration, pruritus, pain)
- Expected systemic vaccine side effects in previous COVID-19 vaccines (fever, chills, fatigue, headache, lymphedema, diarrhea, myalgia, arthralgia)
- Previous COVID-19 infection
- Vasovagal reaction after receiving a dose of any vaccination
- Being an immunocompromised individual or receiving immunosuppressive medications
- Autoimmune conditions, including Guillain-Barre syndrome
- Allergic reactions to anything not contained in the COVID-19 vaccine, including injectable therapies, food, pets, oral medications, latex, etc. (Please note the COVID vaccine does not contain egg or gelatin.)
- Alpha-gal syndrome
- Pregnancy, undergoing fertility treatment, intention to become pregnant or currently breastfeeding (Please note the American College of Obstetricians and Gynecologists, the Society for Maternal-Fetal Medicine and the American Society for Reproductive Medicine all strongly recommend COVID-19 vaccination during pregnancy.)
- The medical condition of a family member or others residing in the same household as the employee

<sup>1</sup> Covered personnel are defined as “[a]ll persons employed or affiliated with a covered entity [*i.e.*, a “general hospital or nursing home pursuant to section 2801 of the Public Health Law”], whether paid or unpaid, including but not limited to employees, members of the medical and nursing staff, contract staff, students, and volunteers, who engage in activities such that if they were infected with COVID-19, they could potentially expose, patients, residents, or personnel working for such entity to the disease.”

Clinician Certification: **By completing this form, you certify that the above-named individual is a patient under your care and has been examined by you. You further certify that different methods of vaccinating against COVID-19 have been fully considered and that the patient has the contraindication indicated above that precludes any/all available vaccinations for COVID-19.** Information about approved medical exemptions for COVID-19 vaccination can be reviewed at [cdc.gov/vaccines/covid-19/clinical-considerations/covid-19-vaccines-us.html](https://www.cdc.gov/vaccines/covid-19/clinical-considerations/covid-19-vaccines-us.html).
