Updating Your Expense Profile

Use the Profile Options page to set or change your personal preferences. To avoid re-entering personal and permanent information about yourself, complete your profile after logging onto SAP Concur for the first time and review/update it whenever your information changes. Your profile options include:

- Approvers
- Attendees
- E-Receipts
- Expense Delegates
- Expense Preferences:

To access your profile information

1. Click Profile > Profile Settings.
   The Profile Options page appears.
2. Click the appropriate option from the left-side menu.
   At a minimum, you should do the following:
   - Verify your primary email address is correct and add any additional email addresses that you will be using to submit receipts.
   - Verify and update your Personal Information.
   - Review the information is accurate under Expense Information.
   - Verify that the name of your Expense Approver is correct. This person should be your supervisor and the first approver in your workflow. If the data is incorrect, ask your supervisor to contact the VP Coordinator to resolve the issue with HRS – Class & Comp.

Delegates

If you are acting as a delegate for another employee (the delegator):

- Any changes you make on this page affect only the delegator and do not change your personal information.
- You cannot access all profile options for your delegator.
Assigning a Delegate

To assign a delegate

1. Click Profile > Profile Settings. The Profile Options page appears.
2. Click Expense Delegates from the left-side menu, then Add.
3. Locate the appropriate employee using the Search by... field, then click Add.
4. Select the checkboxes to set the delegate’s permissions.

   Can Prepare enables the delegate to prepare a report/request but not submit it.

5. After selecting the appropriate checkboxes, click Save.

   NOTE: Selecting Can Prepare automatically enables Can View Receipts because receipts are integral to preparing a report.
Acting as a Delegate

If you are a delegate, your delegator will define which tasks you can complete, such as preparing reports, receiving Concur-related notifications, etc.

To work as a delegate

1. Click Profile then Act on behalf of another user.
2. Click on the magnifying glass icon to view a list of the employees that you have as their delegate.
3. Select the appropriate delegator’s name from the list.
4. Click Start Session.

Notice that the Profile menu now displays Acting as and shows the name you just selected.

5. You are now officially working on behalf of that person. Complete the normal processes for creating reports, printing, etc.
   
   To select a different user, follow the same steps but click a different name.

6. To return to your own tasks, click Acting as, and then select Done acting for others.
Creating a New Expense Report

To create a new expense report

2. Complete all of the required fields (marked with red asterisks). The fields that appear vary based on the Policy selected: RF-Expense Policy
3. Click **Next**.

6. Complete the fields for the New Itinerary Stop based on your travel.

7. Click Save.

8. Add additional New Itinerary Stops, as needed, based on your trip and Save them.

   **NOTE:** At a minimum, you should have two stops, the outbound and return legs of your trip.

9. After adding in all itinerary stops, click Next.
10. Click **Next** to assign the selected itinerary and create the Per Diem expenses.

11. Click on the checkboxes to exclude meals from your per diem, as necessary. For instance, if you had breakfast at home on your first day of travel, you should select the **Exclude Breakfast** checkbox for that meal because it is not included in your per diem. Similarly, if you are attending a hosted event that provides breakfast and dinner, you should exclude both expenses from your per diem.

**NOTE:** The daily Allowance amount will change to reflect your adjusted per diem.

12. After selecting all of the meal exclusions, click **Create Expenses**.
13. The **Meals – Per Diem** expenses now appear in your report. At this point, you will likely either:

- Add an out-of-pocket expense to your expense report
- Add University-provided credit card (NET & Travel cards) transactions to your expense report

To copy an expense

1. With the expense report open, select the expense you want to copy.
2. Click Copy.

The new expense is added to the Expenses list. Notice the following:

- The original expense date is advanced by a day.
- All allocations, attendees, expense-level comments, and value added tax (VAT) details from the original expense are copied to the new expense.
- Credit card information, e-receipts, mobile entry information, and travel segments (associated with travel itineraries) from the original expense are not copied to the new expense. This type of information is generally associated with only one expense so it is not copied to the new expense.
- If the Payment Type of the original expense is a credit card, then the Payment Type of the new expense is editable using the dropdown list.
Itemizing Nightly Lodging Expenses

A hotel bill typically contains a variety of expenses including room fees, taxes, parking, meals, valet, telephone charges, and personal items. You must itemize these expenses so that they can be reimbursed correctly. Lodging Itemization allows you to quickly itemize recurring room rates and taxes. You can then itemize the remaining charges on your hotel bill, and adjust for any rate changes during your stay.

To create a lodging expense

1. With the report open, click Add Expense, and then select the Lodging expense type.
2. Complete the required fields.
3. Click the Itemizations tab.
4. On the Itemizations tab, click Create Itemization.

![Image of lodging expense entry]

   - Select the "spend" **Currency** from the list to the right of the **Amount** field. Notice that the **Conversion Rate** field appears.
   - The **Conversion Rate** is automatically populated according to the **Transaction Date** and **Currency** entries. Expense calculates the **Amount** in your reimbursement currency.
   - Currency can be converted by multiplying by a particular rate or dividing by a different rate. To switch between multiplication of the rate to division of the rate, click **Reverse** next to the **Conversion Rate** field.
