

Stony Brook University

College of Arts and Sciences

The College of Arts and Sciences Policy on The Responsible Conduct of Research and Scholarship

Background

Stony Brook University policy requires members and specific Stony Brook University guests to complete educational training on the responsible conduct of research and scholarship (RCRS) to equip members with the tools necessary to conduct ethically sound and compliant research and scholarship.

While this campus policy originates in response to National Institute of Health (NIH) and National Science Foundation (NSF) training requirements, it is the opinion of the University that training on responsible conduct of research and scholarship should be more comprehensive. Jointly issued by the Office of the Provost, the Office of the Senior Vice President for Health Sciences, and the Vice President for Research and Innovation, the policy requires each academic unit to develop its own Complementary Policy for implementing the Stony Brook University policy to allow for the most appropriate requirements for the faculty, staff and students of that academic unit.

All persons receiving external grant support from an agency with a RCRS training requirement must meet agency policies should they exceed minimum Stony Brook University requirements.

Stony Brook Policy: [Responsible Conduct of Research and Scholarship](#) (RCRS) ensures the highest ethical standards for the conduct of research and scholarly activities on our campus. The College of Arts and Sciences (CAS) Complementary Policy ensures compliant completion of RCRS training for CAS faculty, postdoctoral associates, research staff, graduate students, undergraduate students, and visitors involved in research and scholarship. However, ALL PERSONS BENEFITING FROM EXTERNAL GRANT SUPPORT FROM AN AGENCY WITH A RCR TRAINING COMPONENT MUST MEET AGENCY POLICIES, EVEN WHERE THEY EXCEED UNIVERSITY, COLLEGE, OR DEPARTMENT REQUIREMENTS

THE COLLEGE OF ARTS AND SCIENCES TRAINING COMPONENTS AND DOCUMENTATION

Training in responsible conduct of research/scholarship consists of two components: (i) one-time completion of an online module; and (ii) in-person training. Any activity intended to fulfill the RCRS training requirement must be supported by appropriate documentation (attendance, topics covered, etc.) in a departmental database. Each department must identify an individual or group responsible for identifying and notifying persons required to complete RCRS training and for maintaining accurate, verifiable records regarding individuals' completion of CITI and IPT training requirements.

1. Online training (CITI)

Each faculty member, student, postdoctoral researcher, member of research staff, and visitor who is involved in research/scholarship and/or who supervises students in research/scholarship is required to complete the one-time-only, web-based Collaborative Institutional Training Initiative (CITI) training,

Stony Brook University

College of Arts and Sciences

choosing the Responsible Conduct of Research module that is most appropriate to their research area (Biomedical Sciences, Engineering, Humanities, Physical Sciences, Social and Behavioral Sciences).

This requirement is independent of other CITI modules that may be required for specific projects.

Instructions for accessing the CITI RCR modules can be found here:

https://www.stonybrook.edu/commcms/cas/faculty_and_staff/research/CITI-RCRS-training.php

Completion of the CITI requirement must be recorded in the departmental database. This completion will also be recorded in a central SBU database.

2. In-person training (IPT)

Each member of the community involved in research/scholarship is also required to complete in-person training (IPT). IPT consists of face-to-face interactions designed to promote discussion, foster a climate of ethical conduct of research and scholarly activities, and provide efficient opportunities for training.

This training may take the form of department retreats, workshops, or regularly scheduled seminars. Graduate students' involvement in research/scholarship should be documented through satisfactory completion of an IPT training course such as GRD 500 or an alternative course designated by the department.

The specific IPT training requirements and activities for fulfilling them are defined by each department, although anyone benefiting from external funding must fulfill the requirements of the funding agency in addition to departmental requirements.

3. Documentation of in-person training (IPT)

Option 1: Each department must designate an individual or group responsible for identifying and notifying persons required to complete RCRS training and for maintaining accurate, verifiable records regarding individuals' completion of CITI and IPT training. CITI completion will also be recorded in a central SBU database. Fulfillment of RCRS requirements will be taken into account in consideration of faculty for merit and/or bonus salary increases.

Option 2: For all other IPT options, after completing IPT in RCRS, each individual is responsible for entering their IPT activity in the ORC university-wide database at:

https://stonybrookuniversity.co1.qualtrics.com/jfe/form/SV_bxe2wM1SIH58W8t

ORC will identify individuals required to complete the training, maintain the RCRS database, track, monitor, and report training completion data.

Appendix A: Instructions for Accessing the CITI Online RCRS Training

How to Log In to the CITI Program to Complete the Online Training

1. Access the CITI program at: <https://www.citiprogram.org>
2. Click "Log in through your institution"
3. Select SUNY--University at Stony Brook
4. Under "Learner Tools," click "Add a course"
5. Scroll down and select "I want to complete an RCR course at this time" and then click "Next"
6. Select "Basic course"
7. Select the appropriate module for your discipline:
 - The **Biomedical Sciences** course in the RCR
 - The **Social & Behavioral Sciences** course in the RCR
 - The **Physical Sciences** course in the RCR
 - The **Humanities** course in the RCR
 - The **Engineering** course in the RCR

As soon as you have completed the module relevant to your research, please retrieve your certificate, email it to CAS_RCRS@stonybrook.edu, and keep a copy for your own files.
