NEW YORK STATE PUBLIC
FLAGSHIP UNIVERSITY

FIND YOURSELF

At Stony Brook University (SBU), you can shape your future. Providing academic excellence, a vibrant campus life, real-world research opportunities, and personal attention and support, Stony Brook is the key to unlocking your potential.

TOP 40

PUBLIC UNIVERSITY
IN THE UNITED STATES

— U.S. News & World Report, 2022

#1

PUBLIC UNIVERSITY
IN NEW YORK

— QS U.S. Rankings, 2021

The SBU Difference

- Students from nearly 50 states and more than 100 countries
- 200+ programs, from anthropology to health sciences, computer science to creative writing, and studio art to sustainability
- AAU (Association of American Universities) member, one of only 65 in North America
- Home to Stony Brook Medicine, a leader in LGBTQ+ healthcare equity

Brianna

New Rochelle, NY

Marine Vertebrate Biology

Activities: Caribbean Student Organization, Marine Science Club, Environmental Club

"I love the environmental studies program. They have **so many opportunities** for me as someone who loves exploring nature, like the Semester by the Sea program, where students take classes on a boat. And then there's the winter study abroad program in Jamaica. I hope to do that next year."

26

ACRE
PRESERVE

Heath

Caldwell, NJ

Journalism

Activities: Hillel, intramurals, student media

"What I love most about this school are my peers and my professors. And I've been able to make friends and speak to people from all over the world."

"I took an oceanography class last semester, and the professor was pretty awesome. Taking his class was wonderful, not just because I was studying something that I love, but he was very passionate about it. And I love that he's not just a professor. He also goes out into the field himself. And it really got me excited about doing the same thing in the future."

7 RESEARCH
VESSELS

Located on a bio-diverse island, Stony Brook has many opportunities for hands-on research.

FIND YOUR PACK

"At Stony Brook, you will find people that **fit your vibe.**"

Nistha

Ronkonkoma, NY

Scholars for Medicine/Journalism

Activities: Undergraduate Student Government senator; writer for the school newspaper; wind ensemble; intern at the Center for Civic Justice

Love of music. Love of science. Love of facts. Nistha combines all these passions in her Stony Brook experience.

"Being in the ensemble, I get to meet so many people who have that same kind of passion and love for the arts. Playing is a way for me to pull away from schoolwork and I'm so happy to be able to keep playing here. I didn't have to sacrifice music or things that I love because of my academics."

Something for everyone

400+ STUDENT-RUN CULTURAL EVENTS AND PERFORMANCES

5,500+ IN-PERSON ACTIVITIES EACH SEMESTER

300+ STUDENT CLUBS AND ORGANIZATIONS

Mahambe

Bronx, NY

Africana Studies

Activities: African Student Union, Mu Delta Chapter of Phi Beta Sigma Fraternity

"Stony Brook is the place where **dreams can be found.** Even though you may come in with a dream, it may not be **THE dream.** Stony Brook is the place and has the people to help you achieve it."

"My first major was marine biology and even though I still have a very deep passion for it, I realized it wasn't a fit for me. By taking a few Africana studies courses and opening my eyes to the other part of the story, I started thinking deeper about what I wanted to do with my life and how I could help my community. It was clear to me that this was something that I had to pursue.

"It's very important to have representation of your culture; to feel like these are my people, and to come from similar backgrounds, sharing experiences. And not only that, putting out those experiences for the rest of the campus community so they can get a taste. That's really important to my fraternity — giving back to your campus and just doing what you can to make your community a better place."

Mahambe stops by the Staller Steps, *THE* place on campus to meet up with friends, play frisbee, enjoy a movie night or watch student performances.

Activities: Dean's Student Advisory Council,
Educational Opportunity Program

**REACH
YOUR
POTENTIAL**

"Stony Brook not only allowed me to reach my dream, **reach my full potential** but it also allowed me to build a new limit for what my potential can be, let me exceed it and then helped me find the next goal."

"What I've loved most about Stony Brook is the family aspect it provided through all of its programs. I came in as an Educational Opportunity student, so I already had a cohort of 100 friends because of our summer academy. After that, I was able to find not only STEM majors but other people that I could confide in and have that community-building process. Even in a class in a large lecture hall, you build your study groups, you go to the library, there's always some activity going on and

you can find yourself with people that you would have never thought you had something in common with.

"When you haven't seen someone in awhile, you pick up right where you left off, and it's like how can I help you? And that's the same thing for the staff. Whether it be a faculty or an adjunct, they care about their students and they always try to go out of their way to make sure that you feel supported."

Research Endeavors

Undergraduate students can begin doing research in labs, libraries or out in the field as early as their second semester. And with stipend support, they can continue their work over the summer through our faculty-mentored research programs.

Tonni

Rockaway Beach, NY

Engineering Science

Activities: National Society of Black Engineers,
Collegiate Science and Technology Entry Program,
peer mentor, intramural sports, basketball referee

"**There's so much you can do here. I want to try everything.**"

"My first year, I didn't really know anyone. I was really shy. But I broke out of my comfort zone to try new things, and that's where I met a lot of people and I learned from them. Now I feel like I always have someone that I can hang out with on campus.

"With my major I got to explore all the different types of engineering like mechanical and electrical, and then I picked which one I wanted to focus on more. I'm concentrating in Environmental Engineering and I really enjoy it."

80+ BOATS THAT LAUNCH
IN EACH REGATTA **70+** THAT
SINK!

Tonni and friends set sail in Stony Brook's legendary Roth Pond Regatta. At the annual event, daring teams vie to stay afloat and cross the pond in boats made only from cardboard and duct tape.

Tonni loves spending time at the Campus Recreation Center, where she often plays basketball with friends and works as ref.
